Faculty of Science and Technology - Nova University of Lisbon

Almada, PT

Integrated Master's in Computer Science

09/2016-currently

Current Average: 15.34/20 | Obtained credits: 150 ECTS

WORK EXPERIENCE

The Navigator Company

Setúbal, PT

Summer Intern

08/2018 - 09/2018

- Updated the pallet quality assurance application built in the previous year to reflect the new inspection process defined by the company.
- Developed an analogous application for paper wrapper quality assurance inspections.

Summer Intern

07/2017 - 09/2017

- Codeveloped, in Excel VBA, an application that allowed the registration of unloaded pallets at the "About the Future" paper mill's warehouse, as well as of their quality assurance inspections, to become digital and intuitive.

APSS - Administration of the Ports of Setúbal and Sesimbra

Setúbal, PT

Intern in the Department of Information Systems

08/2015 - 09/2015

- Developed a web application in PHP to manage APSS's clients and contracts, improving it based on the users' feedback.
